

FAASTeam & RDU ATCT presents:

A New Era in Aviation!

Jim "JR" Rary of the Raleigh-Durham Air Traffic Control Tower will discuss the FAA's satellite-based successor to radar known as Automatic Dependent Surveillance - Broadcast (ADS-B), A New Era in Aviation! He will answer common questions such as: What is ADS-B? What can it do for me as a pilot? If you want to get more out of your avionics, including tablet PC's, then this is a chance to better understand the capabilities of ADS-B technology. Additionally, JR will discuss RDU's new updated radar system and current operational topics to keep you safe. The event will conclude with the popular Question and Answer Session.

Directions: From I-40 exit onto Aviation Pkwy. (Exit 285) to Terminal, go past terminal 1, turn right onto W. Intl. Dr., continue past FBOs, turn left on Business St. to stop sign. Bldg. directly across the street. *Auto arrivals using GPS: Verify that your GPS is directing you to the RDU Airport (listed as Morrisville in some systems).

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
